#### Abydos temple

Considered one of the most important archaeological sites of Ancient Egypt, the sacred city of Abydos was the site of many ancient temples, including Umm el-Qa'ab, a royal necropolis where early pharaohs were entombed. These tombs began to be seen as extremely significant burials and in later times it became desirable to be buried in the area, leading to the growth of the town's importance as a cult site.

Abydos was one of the most important religious sites to ancient Egyptians. Much like modern Muslims hope to complete a pilgrimage to Mecca at least once in their lifetime, ancient Egyptians would have hopes to visit Abydos, which for them was strongly associated with the entrance into the afterlife.

Although there were several temples constructed here, the largest and most significant is known as the Temple of Seti I. Seti I was the father of the great Ramesses II, who actually completed the construction of most of the temple after his father's death.

Then drive to Dendera temple?

#### Dendera temple:

The Temple of Hathor was largely constructed during the Late Ptolemaic period, specifically during the reign of Ptolemy XII and Cleopatra VII. Later additions were made during the Roman period. Although built by a dynasty of rulers who were not native

Egyptians themselves, the design of this temple has been found to be in accordance with that of other classical Egyptian temples, with the exception of the front of the hypostyle hall, which, according to an inscription above the entrance, was constructed by Emperor Tiberius.

Apart from these, there are also scenes in the temple complex portraying the Ptolemaic rulers. For example, carved onto the external face of one of the temple walls is a huge relief of Cleopatra VII and her son by Julius Caesar and co-ruler, Ptolemy XV (better known as Caesarion). The two Ptolemaic rulers are shown dressed in Egyptian garb, and offering sacrifices.

Hathor was also regarded as a goddess of healing, and this is evident in the presence of a sanatorium in the temple complex. Here, pilgrims would come to be cured by the goddess. Sacred water (which was made holy by having it poured onto statues inscribed with sacred texts) was used for bathing, unguents were dispensed by the priests of Hathor, and sleeping quarters were provided for those hoping that the goddess would appear in their dreams, and so aid them.

Aswan was the source of ancient Egypt's finest granite, used to make statues and embellish temples, pyramids, and obelisks.
