Enjoy an Overnight snorkeling Trip at sataya dolphin reef from Marsa Alam ,Shaab Sataya is the biggest reef of the Red Sea with a length of 45 km. Boats starting at Hamata will reach the spot within two hours.Huge groups of spinner dolphins are living along the reef.

Days Table

First Day :Day-1

After embarkation, we head two hours south towards Sataya. Already on the journey, with luck, you can observe the dolphins, which accompany the boat at high speed. The dolphins are usually very curious and playful and sometimes come very close to the boat so that you can take good photos of them. We will go snorkelling several times throughout the day. With luck, we will meet the dolphins there and can enjoy their presence. In the evening, there is a delicious oriental BBQ to round off the day. Afterwards, you have time for yourself to relax and enjoy the starry sky.

Second Day :Day-2

After sunrise, we head out to the reef for another snorkelling session, followed by a hearty breakfast. A last swim in the bay before we leave for Abu Galawa. This reef consists of huge coral gardens and also a small wreck, which is great to see while snorkelling. Afterwards, we head back to the harbour.
